

## 5SR Tactical Flashlight

White Laser and Infrared laser output

### Specifications

ANSI / PLATO FL1	White laser				IR laser		
	High	Medium	Low	Turbo	High	Low	SOS
 Output (lumens)	600	260	15	700	700 mw	20 mw	700 mw
 Runtime (hours)	1.5	2.5	70	0.5	2.1	72	2.5
 Beam Distance (m)	650	200	5	800	500	5	500
 Peak Beam Intensity (cd)	105,625	10,000	6	160,000			
 Impact Resistance (m)	1.5						
 Water proof	IPX-8, Under water 2 meters						

### Accessories

MUSB2, Connector for battery charging

MSW2, Connector for remote switch control

Once the ring has been set on white, partially press or click the tail cap switch, which is shrouded to prevent accidental activation. For high output, return to off, then press or click again for medium output, then to low, but click the switch twice within 2 seconds for turbo output. If set on IR, for high and low output, click switch twice within 2 seconds for SOS output.

## Description

The 5SR is a dual-output tactical flashlight that provides both white light and infrared output without the need for an IR filter, the perfect dual-spectrum tactical light for military and law enforcement night vision and aiming users.

Once the ring has been set on white, partially press or click the tail cap switch, which is shrouded to prevent accidental activation. For high output, return to off, then press or click again for medium output, then to low, but click the switch twice within 2 seconds for turbo output. If set on IR, for high and low output, click switch twice within 2 seconds for SOS output.

The white laser for long distance searching and optical power 700mW of infrared for night vision use. While it is zooming in, the white beam search to 1,000 meters, the infrared for night vision to 500 meters.

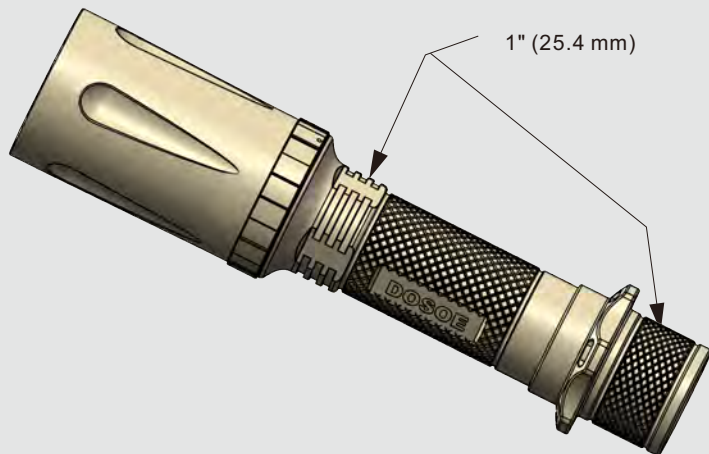

The difference between white laser and LED, the advantages of white laser is smaller power consumption, lower lumen, but the light reaches greater distance.

The 5SR runs on a single recharge-able battery of 18650 lithium-ion, and no need to take it out for charging, just use the accessory , MUSB2, plug into a USB Port.

Assembled as a weapon- light, use the accessory, MSW2, for a remote control

Made of durable aerospace-grade aluminum, with Mil-Spec type III hard-anodized for extreme durability

Installed on picatinny rail with 1inch ( 25.4mm) scope mount ring.

## Not only White and Infrared, more options !

5SR	White+IR		
5SRD	White+Red		
5SGR	White+Green		
5SBL	White+Blue		
5SYE	White+Yellow		

Battery: 18650 lithium-ion

Size: 6.02" x 1.37" x 0.93" (153 x 35 x 23.5 mm)

160 grams (excluding batteries)

Color: Black or Desert Tan
